

## Digital Library Plus (DL+)

[www.iingroups.com/idl](http://www.iingroups.com/idl)

Whether you already have a library management system or not, DL+ is an ideal partner for you:

- A comprehensive electronic A to Z of your resources irrespective of types (database, journals, book, ...)
- Complete subject classification of all resources in three levels (category, main subject, subject) covering more than 240 subjects
- Full ranking of journals
- Search and browse your titles
- Integrate your digital library tools (Federated Search, Link Solution, License Management, Push Technology, Athens Single Sign On, ...)
- Personalize your DL+ and make it work for your subjects of interest
- Set RSS in specific titles to receive TOC Alert

DL+ helps you to promote all your subscribed titles in your organisation, increase rapidly the usage statistics, and decreases your cost per document.

## Web Scale Discovery - Summon

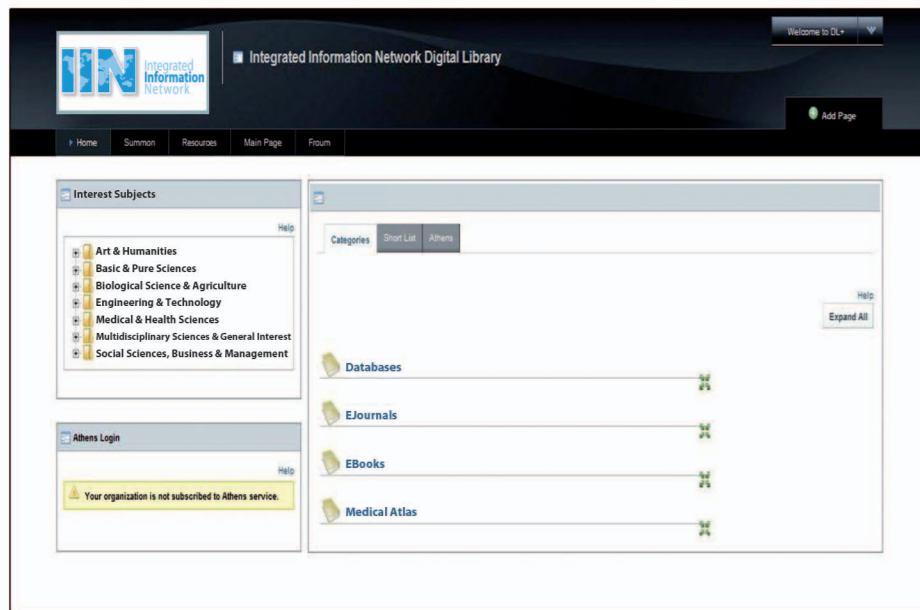

In new version, Digital Library Plus has upgraded its search technology from Federated Search to Web Scale Discovery (Summon) to have **Simple, Easy, and Fast Search**. The Summon™ web-scale discovery service enables libraries to take back their role as the best starting point for research by exposing more of their authoritative content to users. This breakthrough service allows users to search the **breadth of library collections – physical and digital at the article level – from a single search box**. With its unified index of preharvested content much from full-text articles the Summon™ service turns the library search experience into one as simple, easy, and fast as searching on the Open Web. The first of its kind, the Summon™ service is built on all-new **Web Scale architecture to handle massive amounts of content (more than 620,000,000 scientific records)** and with unprecedented speed.

## Digital Library Tools

[www.iingroups.com/products](http://www.iingroups.com/products)

### ➔ Single Sign On

IIN represents EDUSERV Athens in the Middle East. Athens is an Access Management system for controlling secure access to web based services, be it database, electronic journal, or any other resource.

Copyright © Integrated Information Network. 2010-All Rights Reserved  
Powered By Digital Library Plus (DL+)

### ➔ License Management

DL+ supports all of the administrative tasks associated with evaluating, licensing, and providing access to electronic content. It provides vital e-resource information to the library's users while alleviating the headaches of back-office management of e-resources.

### ➔ Tools for Researchers

We offer the most important research tools on the web and desktop such as EndNoteWeb, ProCite Reference Manager, WriteNote and RefViz. It helps researchers to search remote databases and library catalogues on the internet, import references into and organize personal libraries of citations, and produce papers written in word processors with correctly formatted in-text citations and bibliographies.

[www.iingroups.com](http://www.iingroups.com)

### ➔ Linking Solution

DL+ incorporates an OpenURL enabled link resolver, and provides comprehensive full text linking for a library's electronic resources, regardless of the software or content vendor. It is fully OpenURL compliant, and can work in conjunction with any other OpenURL compliant system.

## Your Partner in Content

### Databases

[www.iingroups.com/databases](http://www.iingroups.com/databases)

With over 900 databases, IIN offers a very rich set to select from. We have divided these into three groups: **Central Databases** are large multidisciplinary resources such as SCOPUS from Elsevier Science and Web of Knowledge from Thomson Reuters (ISI, Citation Database)

**Core Databases** are main resources which focus on your main fields of interest. Medline, Embase.com, El-Compendex, PsycINFO, CAB Abstract are some examples. **Specialty Databases** have a narrower and more specific focus.

### eJournals

[www.iingroups.com/ejournals](http://www.iingroups.com/ejournals)

There are over 10,000 online journals directly from publishers and more than 11,000 from famous Journal aggregators with unlimited user access. These provide some of the highest ranked journals with a full coverage of all subjects. Journals may be acquired in different forms:

- Online or Print + Online subscriptions to journals
- Subject Bundles (such as Business and Management, or Dentistry)
- Subject Collections (such as STM)
- Full Collections

Online journals are generally offered with some years of back files and perpetual right of access to the subscribed titles.

### Historical Backfile Collections

[www.iingroups.com/backfiles](http://www.iingroups.com/backfiles)

More and more publishers are digitizing their complete collections by going back to volume 1 issue 1 of journals. These are mostly one time purchase products which can be owned and used on publisher platforms. This is a simple but low cost solution to all of your missing issues and library gaps.

### eBooks

[www.iingroups.com/ebooks](http://www.iingroups.com/ebooks)

With more than 110,000 online books 35,000 of them being direct from our partner publishers, IIN offers a comprehensive collection of books. There are many options to go for and whatever your need, our partnership will benefit you:

- Individual books or collections from our aggregator partners ebrary and NetLibrary
- Online Books direct from publishers
- One time purchase or subscription
- The whole book or a single chapter
- Unlimited access or limited use
- Research books as well as text books

### eReferences

[www.iingroups.com/ereferences](http://www.iingroups.com/ereferences)

References are multi-volume works which provide a comprehensive and well structured account of the stated area. Most references are in the form of Encyclopedias, Handbooks, and Dictionaries. They deploy precision searching, cross referencing, and linking in order to provide simple and fast access to large volume of information. Enrich your library by references directly from these renowned publishers:

- Wiley- Blackwell
- Elsevier Science
- Taylor and Francis
- Gale (Virtual Reference Library)

### eProtocols

[www.iingroups.com/eprotocols](http://www.iingroups.com/eprotocols)

IIN also offers other eResources in digital libraries solution as below:

- Image Databases
- eCourses (CME and Educational Materials)
- Multimedia Procedures and Skills
- EBIM (Evidence Base Medicine Databases)
- eProtocols (Hands-on Laboratory Methods)
- Specialty Portals
- Expert Knowledge Systems
- Clinical Management Systems, **Clinical Decision Support and EHR**

## eBooks, eReferences Collection

### Elsevier eBooks:

The number of eBooks released on ScienceDirect since May 2007 is over 5,000 titles. By including all Handbooks, Reference Works and Book Series titles there are now over 10,000 online books on ScienceDirect. Covering a wide range of scientific disciplines, the new eBooks program includes monographs, text and professional reference books and conference proceedings published under the renowned Academic Press, Pergamum, Elsevier, North-Holland, JAI Press and Butterworth-Heinemann imprints.

### Springer eBooks:

The world's most comprehensive online scientific book collection. Introducing the world's most comprehensive digitized scientific, technical and medical (STM) book collection.

- More than 4,500 New eBooks and eReference Works Every Year
- Unlimited Simultaneous Use
- Over 40,000 eBooks Available
- Grouped in 12 fully indexed and searchable subject specific Online Libraries

### Taylor & Francis eBooks:

Taylor and Francis Group publishers around 1800 new books each year with a books backlog in excess of 21,500 specialist titles. The cooperating publishers with T&F for the publish above eBooks are CRC Press, Garland Science, Psychology Press and Routledge. They cover all subjects' areas.

### Wiley-Blackwell eBooks:

Wiley-Blackwell Online Books now includes over 10,000 titles, with more than 1500 titles from Blackwell Publishing and 400 titles from Wiley-VCH. Online Books offers flexible electronic access to thousands of must-have books from a broad range of subject areas.

## eBooks Aggregators

### -MyLibrary

With nearly 250,000 titles currently available, covering all major academic disciplines, and an additional 1,000 titles being added weekly.

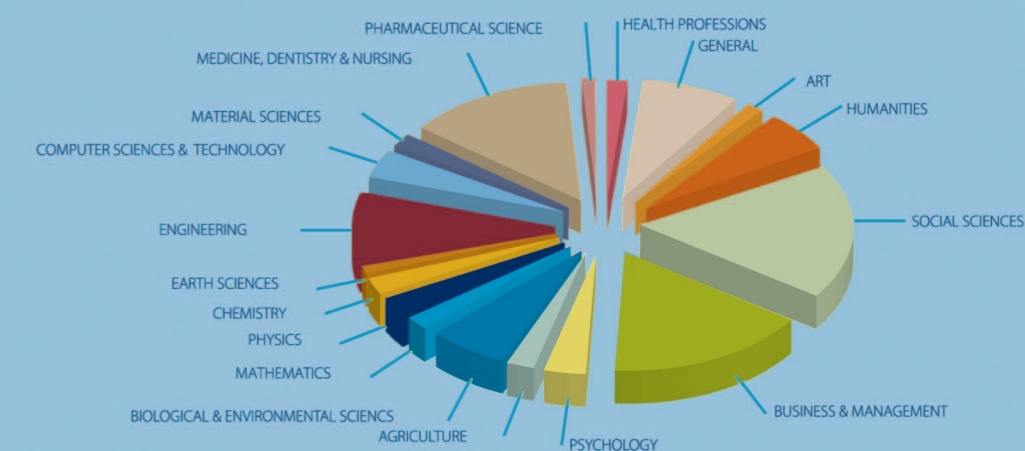

### -NetLibrary

More than 300,000 titles and hundreds of global publishers already represent a comprehensive inventory of trade, reference and STM content.

## IIN University Press Digital Library

Oxford university Press, Cambridge University Press and World Scientific Publishing (publisher for Imperial College, London) are our prominent university presses which publish over 600 journals in a wide variety of fields. This is an ideal library for a small to medium size university or college as well as large universities.

## IIN Science and Engineering Digital Library

This library covers journals collections from society publishers which cover Physics, Chemistry, Mathematics, Civil and Mechanical Engineering, Electrical and Electronic Engineering:

- ↳ Institute of Physics
- ↳ American Institute of Physics
- ↳ American Physical Society
- ↳ American Chemical Society
- ↳ Royal Society of Chemistry
- ↳ American Mathematical Society
- ↳ American Society of Civil Engineers
- ↳ American Society of Mechanical Engineers
- ↳ IET
- ↳ IEEE
- ↳ ACM
- ↳ The Royal Society

## MENA Open Consortium

IIN is a consortium partner in Saudi Arabia, Lebanon, Iran, Jordan & Egypt among many others. However, building a real consortium in countries with smaller number of universities or countries in which a formal consortium management body does not exist is not possible.

IIN has established the Middle East and North Africa (MENA) Open Consortium. Anyone can join and benefit from its consortium based offers. Many of our partner publishers have joined and are offering heavily discounted prices to those who join this open consortium

## IIN Partner Publishers, Information, and Technology Providers

We are working closely with over 40 of the world prestigious and highest ranked publishers, Information, and Technology providers to create trusted digital library environment for your researchers and specialist.

- ↳ American Institute of Physics (AIP)
- ↳ American Mathematical Society (AMS)
- ↳ American Medical Association (AMA)
- ↳ American Physical Society (APS)
- ↳ American Psychological Association (APA)
- ↳ American Society of Civil Engineers (ASCE)
- ↳ American Society of Mechanical Engineers (ASME)
- ↳ Annual Reviews (AR)
- ↳ Association for Computing Machinery (ACM)
- ↳ American Chemical Society (ACS)
- ↳ BMJ Publishing Group
- ↳ Brill
- ↳ CABI Publishing
- ↳ Cambridge University Press (CUP)
- ↳ Cengage Gale
- ↳ CRC Press
- ↳ Dialog
- ↳ Economist Intelligence Unit (EIU)

## Your Partner in Services and Support

it just never stops...

A successful digital library heavily depends on professional services that it receives in design and implementation stages and the support that it receives once it is up and running.

You will receive six different services from IIN before your digital library is made operational:

- ↳ Holding analysis which gives a clear picture of what is currently acquired for the library
- ↳ Subject & ranking analysis to determine your currently covered subjects and ranks of your resources
- ↳ Technical analysis to determine potential hurdles or shortcomings
- ↳ Need analysis and proposal which explains what is exactly offered to you based on your requirements
- ↳ Evaluation and trial access
- ↳ Complete definition of the digital library which reflects your needs and our offer on how to answer them.

Once you have decided and your digital library is operation we are still your loyal partner.

- ↳ Training librarians as trainers for end users. We provide full training packages
- ↳ Technical Support round the clock
- ↳ Admin Support for you to manage remote access, profiles, usage statistics and many other features
